Mrs. J. CONNORS.

Bellevue Miner Dies of Exposure

The lifeless body of Nicola Doet,
a Belgian miner, was discovered in
a by-path near the Frank slide on
Sunday evening last. The master
was immediately reported to the
police and Detective Melvor, several
other police and Coroner Pinkney
were soon on the scene and viewed
the remains. The body was re-
moved to the miners' hall at Bel-
levue, where an inquest was held.
On examination by the doctors no
marks of violence were found and
a post-mortem examination on Mon-
day night in the minds of the
doctors and the jury but that Doet
came to his death from exposure,
and not through violence on the
part of anyone. Doet left his home
in Bellevue on Monday night, the
10th, to visit some friends in Frank
Very little alarm was created over
his prolonged absence. Nothing
more was heard of him by his
Bellevue neighbors until the gues-
some find of Sunday was reported.
Monday night was one of the coldest
nights of the season, and it is
thought that while returning home-
wards about 2 a. m. on Tuesday,
he had fainted and in short time
succumbed to the extreme cold.
His body when found was partially
covered with snow. The body was
taken to Coleman by Undertaker
Davies on Monday afternoon and
prepared for burial and the re-
mains were laid to rest at Bellevue
on Wednesday. Doet was a single
man and had no relatives in this
part of the country.

Estray Notice

Doukhobors Offer Land to Soldiers

Montreal, March 20.— Douk-
hobors in Canada have maintained
the reputation of their race for
meekness and self-sacrifice by one
of the most magnanimous actions
ever recorded. Hearing that the
Great War Veterans' Association
passed a resolution that Douk-
hobors' land be given to soldiers be-
cause they had fought, the Douk-
hobor community, while mildly pro-
testing that war is savagery, has
voluntarily offered all its lands and
possessions to the soldiers. The
community, in its statement, says:
"The directors of the Christian
Society of Universal Brotherhood
considered it necessary to call a
meeting at Bellevue of our Society
to discuss resolutions. At this
meeting over two thousand of our
society were present and the wo-
men were in a majority and it was
there resolved to announce that we
solemnly offer all lands which are
occupied by Doukhobors in Canada
to soldiers who have suffered so
much from the recent war which
lasted over four years."

Save Money by buying War
Savings Stamps.

Mr. Crocker has returned home
to Frank from overseas.

"Daily" Desk-Calendar Pads for
1919 at The Enterprise.

The Alberta budget provides for
\$50,000 for special force to enforce
the liquor act.

The regular semi-monthly meet-
ing of the Blairmore town council
will be held on Thursday next.

Peter Montalbetti has received
his discharge from military service
and returned home from Calgary
on Wednesday morning.

A grand ball will be given in
the Workers' hall at Bellevue on
Friday night of next week, under
the auspices of the G.W.V.A.

Last week Mr. J. Handley bid
farewell to business worries in
Blairmore and turned the lever
over to Mr. W. Howe, who is look-
ing after the tobacco, confectionery,
soft drinks and grocery trade for
Ferdinand Piccarelli.

C. W. Johnston, proprietor of the
Blairmore opera house, is pleased
to testify to the value of advertis-
ing in The Enterprise. Last week
he inserted an item advertising for
a gramophone, and states that
the article was handed over to a
purchaser just twenty minutes be-
fore The Enterprise came off the
press.

Private Joseph Thorndy, of
Pincher Creek, has joined the army
of benedict by taking into him
self a wife in the person of Miss
Mabel G. Pryke, of Algiers Road,
Lewisham, England. The cere-
mony took place at Lewisham on
February the 20th. After a honey-
moon trip through southern Eng-
land, they expect to arrive at
Pincher Creek about April 30th.

HOW SALLOW SKIN CAN BE CHANGED TO ROSY COMPLEXION

Every woman with pale cheeks and poor complexion needs medicine—a needs a potent tonic to regulate her system.

To tone up the stomach—to insure good digestion—to give new life and vitality to the whole system—where is there a remedy like Dr. Hamilton's Pills?

Dr. Hamilton's Pills enable you to eat what you like—their correct constipation—make nourishing blood—insult force and vital into a run-down system.

If nervous and can't sleep your remedy is Dr. Hamilton's Pills. They search out the cause of your condition and you rise in the morning refreshed, strong, vigorous, ready for the day's work.

Dr. Hamilton asks every weak and debilitated person to use his Man Drake and Butternut Pills. They make old folks feel young and weak folks feel strong. Their effect on rheumatism and languor is marvellous. Hundreds declare they are soothed and quiet the nerves so that a sleepless night's rest always follows their use.

To look well, to feel well, to keep well, use Dr. Hamilton's Pills. They are mild, cleansing, strengthening—good for the young or old. Sold by all dealers in 25c boxes.

Missionary Finds New Chinese Tribe

Spent Three Weeks Among Strangest People in Orient

Deep in the wilds of Western China, where the foot of a white man never before had trod, according to the Rev. Dr. Joseph Beach, a Methodist missionary, lives a polyglot nation of more than 4,000,000 persons.

Dr. Beach, who is president of the Western China Union University, at Chengtu in the province of Szechuan, maintained by five evangelical denominations of Britain, Canada and the United States, and who has gone to New York to participate in the Methodist conference, told of a journey he took along with a native guide last summer far into the depths of the habitat of "the turen, or children of the soil," the strangest people in the Orient.

The doctor passed three weeks among the twenty or more tribes in the land, which is as inaccessible as Tibet, he said, and while there found almost every type of mankind, including pygmies, men and women resembling negroes, American Indians, East Indians, Gurkhas, South Sea Islanders, Europeans and other races apparently from all four quarters of the globe. These people, of course, he said, had never been anywhere else than in the country he found them, namely, in a region bounded on the north by the province of Kansu, the south by Burma, Yunnan and Kweichow, the east by Szechuan and the west by Tibet.

"I found a land of beautiful valleys covered with fine farms and homesteads," said the explorer missionary, "while towering above them were mountains from 6,000 to 18,000 feet high. The frontier of China is protected by queer looking stone fortified buildings, manned by natives armed with weapons resembling the old-fashioned blunderbuss. It is not impossible that these people were the originators of gunpowder, the Chinese, who for years have tried to rule them, admit it is of better quality than the powder they make themselves.

"Although suspicious and warlike, and hostile to some kinds of Chinese the 'tu-run' proved to be most hospitable and fed and sheltered us. Huge smokestacks in their communities gave them the appearance of thriving industrial cities. When we arrived we found them engaged in drying solely for the purpose of drying and curing vegetables, meat and fish, which were suspended tier upon tier the entire height of the chimney.

The architecture of the country was distinctively foreign to China, resembling in many respects the feudal castles of Normandy. In other respects it was not unlike the structures of Babylonia and Palestine. Grain, for instance, after being harvested, was threshed upon the roofs of the houses, just as in the Holy Land. The houses themselves are nothing more than boxes, with perhaps one window from which the odors and smoke of cooking escape.

"On top of virtually all the fortified 'castles' a flag was flown. I was told these were 'prayer flags' and had no special tribal or patriotic significance. Every man in the country, apparently, is a law unto himself. Each tribe has its chieftain, but there is no national head, and China exercises only nominal sovereignty.

"Quarrels are settled on horseback by means of blunderbusses, spears, bags of stones and broadswords. The 'tu-run' challenge one another and at a given signal, ride full tilt on small, wiry ponies, at each other. It is seldom that both combatants escape alive, and the survivor is required to feed and clothe the family of his dead adversary as long as they live and this makes 'duels' rare. In many respects these combats resemble the tournaments of the Middle Ages."

Dr. Beach said that while he believed he had penetrated further into this section of Western China than any other white man, he regretted he had not gone still further. "For my guide," said he, "said that four or five days' journey beyond there were tribesmen near Sungan who are just like you." That is, natives who appeared like Europeans. Their dress, conversation and mode of living, of course, he said, was characteristic of the country.

"How so many different types of people located there is a problem for the ethnologist," resumed Dr. Beach. "One theory is that they represent all the warring tribal elements that have come into the continent of Asia and, driven by the Mongols and Tartars, made their stand in this natural refuge between India, China and the northern part of Asia."

"Each tribe is independent of the other, all speak a patois of Tibetan and Turkic, and their religion seems to be a mixture of that of the Lamas. The most numerous are the Lotos, which, again are subdivided into smaller tribes. Others are the Miao, who are polyandrous or polygamous. These people, I believe, are responsive to Christian instruction and kind treatment, and 1,500 missionaries would bring to them the enlightenment they so much need. Nothing has ever been done for them by civilization."

Telephone Users Increasing

Each of the Three Prairie Provinces Has An Excellent Telephone

The fast increasing number of rural telephone users is a good indication of the development of a district. Each of the three prairie provinces has an excellent telephone system and as far as this means of communication is concerned the farmer in Western Canada is as well provided as the town dweller.

With 39,484 miles of pole line in operation, no less than 41,096 rural subscribers were served by the government rural-telephone system at the end of the fiscal year, April 30, 1918. At the end of that period there were 958 rural telephone companies operating under the provisions of the act. During the present fiscal year to date, 4,922 miles of new line have been added, making a total of 44,406 miles of line in operation at the present time.

German Barred by Grain Growers

Regina, Sask. — The German language will be used no longer in the literature and publications of the Saskatchewan Grain Growers' association according to the announcement of J. B. Musselman, managing director. At the annual convention this question was raised and left to the executive to deal with as the members of the board deemed best. French and English will be the only languages used in future, unless the federal government finds it wise and safe to permit the use of other languages.

New Roads for Manitoba

More than 1,200 miles of good roads, involving an expenditure of two and a half million dollars, may be constructed in Manitoba during the coming summer. Plans for this work have been prepared and will come before the provincial government for ratification at the forthcoming session of parliament. At the present time there are about 5,500 miles of constructed roads in Manitoba, 500 miles of gravelled, and 5,000 earthen embankments.

Canada's Potato Crop

Last year 165,579,700 bushels of potatoes were grown in Canada, on 735,192 acres, an average of 143 bushels per acre. In 1917 the potato harvest of Canada was some 79,892,000 bushels, produced on 626,368 acres, an average of 127 bushels per acre. The total value of last year's crop was \$103,636,100, as against \$80,804,400 in 1917, this according to the Monthly Bulletin of Agricultural Statistics, issued by the Dominion Bureau of Statistics.

Northumberland Miner's Association has sent a cheque for \$10,000, subscribed by pitmen of the country for the benefit of distressed miners in Belgium and France. The cheque in the war the union raised \$5,000 for suffering Belgian trade unionists.

Co-Operative Creameries

Strong Organization Promotes Dairy Industry in Saskatchewan

Strong co-operative organization has been a characteristic feature in the development of the dairy industry in Saskatchewan, and this movement is steadily gaining impetus. The co-operative creameries of the province were in the year 1917 amalgamated into one company known as the Saskatchewan Co-operative Creameries, Limited, and the company was given wide powers for the development of dairymen and its natural adjuncts, the cold storage and poultry industries. This organization during 1918, in addition to manufacturing more than 2,800,000 pounds of butter, also provided a cash market for farmers' milk over the province for both eggs and poultry. Nineteen-eighths was the first year in which these latter branches were taken up, but 5,780 cases or 173,506 dozen of eggs were handled, and though the poultry killing stations only operated about eight or ten weeks during the autumn and early winter, the birds received a total dressed weight of 112,947 pounds. The Saskatchewan Co-operative Creameries Limited now have three cold storage plants in operation, and a fourth one under construction, while plans have been prepared for another one on which construction will be commenced as soon as spring opens. In addition, new creameries will be erected in many parts of the province.

Statistics show that approximately seventy-three per cent. of the population of Saskatchewan is on the land, consequently with a large and rapidly increasing dairy output the question of outside markets is essential. In this respect the men in charge of the work have built wisely. From the organization of the province the importance of quality in the finished product has always been kept to the fore, with the result that a splendid outside market has been built up. The importance of this export trade is shown in the fact that ninety-seven carloads of butter were shipped out of the province during the past year, these had a market value of approximately \$1,216,000. The average price per pound ruled several cents higher than in 1917 and the total increase in value of creamery exports was about \$300,000. All indications point to a further substantial increase during the present year in the quality and quantity of butter manufactured and its value in dollars and cents may prove to be.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store "Give me a quarter of an ounce of Freezone." This will cost very little but is sufficient to remove every hard or sore corn from your feet.

A few drops of this new compound applied directly upon a tender, inflamed corn should remove it at once, and soon the entire corn, root and all, dries up and can be lifted out with your fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, "I have used it, it dries in a moment, and simply shrivels up the corn without burning or even irritating the surrounding tissue or skin."

Don't let father die of infection or lockjaw from which he suffers, cut this out and make him try it.

Manitoba Headquarters R.N.W.M.P.

Regina, Sask. — Winnipeg will be headquarters of the Royal North West Mounted Police in Manitoba, according to an announcement made by Commissioner Perry here. Manitoba will also have a reserve squadron and Brandon may be the centre where this body will be located.

Superintendent Starks will be superintendent of the Manitoba division, with headquarters at Winnipeg. One hundred and sixty six members of the force and present members of Canadian cavalry regiments have been assigned by Major Jennings in England. There are actually 330 on the strength in Canada.

The reserve squadron for Saskatchewan will be in Regina, which will also be provincial and general headquarters. The Regina superintendent has not yet been named.

Duluth Construction

Work now in sight for Duluth for this season amounts up into several millions of dollars in value, and will afford employment to an army of men. The list includes a federal building to cost \$1,000,000; new city hall estimated to cost \$1,500,000; and three schools to involve an outlay of \$250,000. Schools and other public building projects already announced for the range towns will also entail heavy expenditure and will assure employment for a large number of men in the trade up till the close of the season.

Over There—Over Here

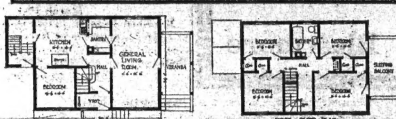

STAG Chewing Tobacco is appreciated by both of Canada's war units—those who fought in Flanders and those who served at home.

It is also enjoyed by civilians of all classes throughout Canada and is recognized as being

Hunger Cause of German Strikes

Washington. — Strike outbreaks in Berlin have been due, primarily, to lack of food and not to communist or Bolshevik propaganda, according to advice to star department from Copenhagen, reporting conditions in Germany as witnessed by an official. Published reports as to the bloodshed in Berlin, according to these advices, have been greatly exaggerated.

Women Should Take

special care to keep free from headache, backache, constipation, weakness and depression. Davidson Gold Mines for Investment

We advise our clients to buy Davidson stock at around the present price. The mine has been developed to an advanced stage. The gold camp of the province is the most important in the company's history are taking place at the present time. Drilling has started on the extensive vein system recently encountered in the shaft at the 500-foot level.

The gold mines of Davidson have produced \$450,000,000 worth of gold since 1912 and have paid in dividends no less than \$13,000,000. The gold camps of the province are comparatively new; they are expanding rapidly. Selected gold securities such as Davidson are the most attractive speculative investments we know of.

If you desire further information regarding Davidson, fill in name and address in accompanying coupon and mail same to us without delay.

WEAK, WORRIED WOMEN

Can Find New Health and Strength Through the Use of Dr. Williams' Pink Pills

It is useless to tell a hard working woman to take life easily and not to worry. To do so is to ask the almost impossible. But at the same time, it is the duty of every woman to save her strength as much as possible; to take her care as lightly as may be, and to build up her strength to meet any unusual demands. It is a duty she owes herself and family, for her future health may depend upon it.

To guard against a complete breakdown in health, the blood must be kept rich, red and pure. No other medicine does this so well as Dr. Williams' Pink Pills. The blood actually makes new, red blood, strengthens the nerves, restores the appetite and keeps the body healthy. It is a duty she owes herself and family, for her future health may depend upon it.

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Flu Takes Heavy Toll

Winnipeg, Man. — Vital statistics just issued show that in the province of Saskatchewan during the month of December, 1918, there were 1,116 deaths from Spanish influenza, which is at the rate of 1.5 per 1,000 of the population. This brings the total number of deaths from this cause up to 3,072 in the province for the first three months October, November and December, the death rate being 4.6 per 1,000 of the population for that period. The treacherous nature of the disease can be well understood when it is realized that during the whole of the year 1918 the total number of deaths in the province from all causes was 5,139.

The finishing touch of satisfaction to many a breakfast is a cup of

INSTANT POSTUM
A rich enjoyable table beverage

Prohibit German Opera

New York. — At the instance of Mayor Hylan and Police Commissioner Enright, who declared that the projected performances might provoke disorder, the management of the Lexington theatre have cancelled arrangements for a resident company of German opera. A committee of soldiers and sailors, bearing a petition signed by 2,000 persons, had called on the mayor, demanding that singing of the opera be prohibited.

Holland Climate Disagreeable

Geneva. — It is reported from Basel that the former German emperor has complained against his residence in Holland. It is asserted that he has declared that the climate is disagreeable, and that he desires to go to the Riviera or Egypt, on account of his health, and that he has requested Mathias Erzberger, head of the German armistice commission, to make representations to the allies to this effect.

Lady.—What is your aim in life, my good woman? Good Woman.—My husband, generally.

We have been using MINARD'S LINIMENT in our home for a number of years and we can recommend it highly for sprains, bruises, pains or tightness of the chest, soreness of the throat, headache or anything of that sort. We will not be without it one day, for we get a new bottle before the other is all used. I can recommend it highly to anyone.

JOHN WAKEFIELD.

La Have Islands, Lunenburg Co., N.S.

Where There's a Will—

Lieut.-Col. A. Balfour, lecturing at the Royal Institution recently, told how Birdwood in Gallipoli once came across an Anzac washing himself in a mug of water. "Well," said the general, "you have a good wash!" To which the soldier promptly replied: "Yes, sir, but I wish I was a blinking canary."

Yes! Everybody Takes Cascarets

Only 10 cents! Harmless cathartic for sluggish liver and bowels

Feel badly? Cheer up! Take Cascarets to live your liver and clean the bowels. It is the most reliable, most pleasant, most effective, most gentlest liver and bowel cleanser you ever experienced. Wake up! Feel grand! Everybody's doing it. Cascarets beat laxative for children. They gladly take this pleasant candy cathartic because it never gives or sickens like other things.

Airplane Evades Customs Officers

Washington, D. C. — Customs authorities have encountered the first case of an airplane imported into the United States under its own motive power. An American bought a Canadian plane, and it was flown across the border near Detroit. The question then arose as to whether it was dutiable, particularly since airplanes are not mentioned in tariff acts.

Customs officials finally decided that if it remained in the United States it should be taxed as a "manufactured article" at the rate of 20 per cent. If it flies out of the country within six months, it will be regarded as, on tour, and will not be taxed.

Voice Sent First by Wire, then by Air

New York. — By a device not more complex than the repeater used in long-distance telephoning, it is now possible to link wireless and wire telephone systems so that the human voice will travel part of the distance over a wire and the rest through the air, according to a paper read before the American Institute of Electrical Engineers by E. B. Craft and E. H. Colpitts of the Western Electric company. They believe that wireless telephony will supplement but not rival wire systems.

Brewery to Make Hot Butter

Newark, N. J. — A brewery in this city has been recently converted into a plant for the making of hot butter at an expense estimated at \$200,000. Between 500 and 600 persons will be employed in the concern.

W. N. U. 1255

More Winter Coming

Port Arthur, Ont. — According to some of the Indians at Sledge there will be lots of winter yet. Recently it snowed heavily all day there. Several Indians were in Port Arthur with their dog teams, and one said, "Will blow more snow, and lots more snow blowing." Windy and stormy weather may be expected during the month of March.

MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

If cross, feverish, sick, bilious, clean little liver and bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, because they are so busy with waste, liver gets sluggish, stomach sour.

Coated, or the tongue, Mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't sleep, full of cold or has sore throat or any other children ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is often the only thing necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully for the seal on the wrapper of the "California Fig Syrup Company."

If you see a man or woman suffering, be glad of it. Don't waste time belittling his success. Use your force trying to equal it.

Milk's Worm Powders not only make the infantile system amenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children run through a course of treatment which condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Of 1,000 species of flowers, 284 are white, 223 yellow, 223 red, 114 blue, 72 violet, 36 green, 12 orange, 4 brown, and 2 black.

Minard's Liniment Cures Buns, etc.

Cattle on the Ranges

"Cattle on the ranges are as fat today as they were in October," said the district range inspector, who is making a tour through the southeastern part of Alberta. There is no danger now of any great loss of fat to be in March. Every rancher and farmer has some hay, and very few have done any feeding as yet. With the cattle in such good condition they have every show in the world to put through easily until the new grass comes.

ISN'T THIS ROMANTIC?

Two toes loved by four corns for years and sentenced to die by five operations of Putnam's Corn Extractor. If you want to cure corns, "Putnam's" is the only thing—try it tonight—cure at all deaths.

Getting the Habit

Shorthorn Steers Hold the High Record for Canada

Shorthorn steers are getting the habit of breaking price records in the open market. They hold the high record for Canada, and during the past year they have broken Chicago high price records on more than one occasion. They also hold the high price record for range steers, and early in December a load of Shorthorn yearlings, averaging 1,151 lbs., sold at \$20 per cwt., which is the high record for yearlings on the open market. About a week later, a load of 1,832 pound Shorthorn grade steers sold at \$20.50 per cwt., another high record for the open market.

At the Denver Winter Show, held in January a load of Shorthorn yearling steers shown in the feeder division by Weiss Bros., Elizabeth, Colo., were sold for \$20.75 per cwt., the record price for feeders, outselling the Hereford grand champions 50c per cwt., and as they weighed 865 pounds, 70 pounds more per head than the champion load, they brought \$18.50 per head more. Another load of senior yearlings, Shorthorns, the reserve champions, exhibited by Weiss Bros., weighed 964½ pounds and sold at \$19 per cwt.

There is a reason why Shorthorns are appreciated by feeders. Note the weights of these steers. These extra pounds, accompanied by quality which commands top market prices when finished, means extra profit for the feeder.

COMMON SENSE SAYS

SPOHN'S DISTEMPER COMPOUND

is the best answer for all questions concerning Distemper among horses. Distemper is a disease which is not much change of weather and climate to cause it. A dose of SPOHN'S before your horse is hatched out. Specially good as preventive or cure.

SPOHN MEDICAL COMPANY, GOSHEN, INDIANA, U.S.A.

Good Lumber Outlook

Depression Which Many Expected Has Not Materialized

The North Canada Lumber Co. Ltd. reports that prospects for business throughout northern Saskatchewan are better today than in any former year. The retail lumber business at the company's numerous yards has been excellent since January 1 and the results of the good crops in the north last year is being felt in all quarters. Farmers are making extensive improvements on their premises and there is particularly good business in material for new barns. It is reported from the southern parts of Saskatchewan that the demand has been keen. It is apparent that the depression in the lumber trade which many expected at the close of the war has not materialized.

Colds Cause Grip and Influenza

LAXATIVE BROAD QUININE Tablets remove the cause. There is only one "Broad Quinine" with Dr. KROVICH'S signature on the box. 30c.

Value of Manitoba's Dairy Products

The report of the department of agriculture of Manitoba shows that the steady progress which is being made in this industry in the province was maintained last year. More than a million pounds more of butter were exported in 1918 than in 1917. The farmers received approximately \$904,912 more for their dairy produce than during the previous year. The total value of dairy products amounted to \$7,993,534.15.

Plot Against New State

Excite a Revolution

Paris. — The council of the great powers heard a statement by Dr. Benis, of the Czech-Slovak delegation, on the widespread conspiracy alleged to exist against the new state on three sides—Germany, Austria-Germany and Hungary. According to documents found in a German courier arrested at Prague, an extensive plot is being fomented to excite a revolution and furnish arms and ammunition to those seeking to overturn the new government.

The council regards the representations as serious, and is taking measures to investigate and give adequate security. The council also considered in Poland, a subject which will be continued, when Poland's frontier on Germany will probably be determined. The indications are that Poland will secure a sea outlet northward to the Baltic and the tendency is to include Danzig in the Polish corridor across Prussia.

Feeble, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Expeller will relieve them and restore their health.

To obtain power from tides an Englishman catches the rising water in basins and makes it operate turbines connected to electric generators when it falls.

Poor Fur Harvest

Dawson. — A mountain police returning from the Arctic say Port Macpherson reports the poorest fur harvest ever known.

No, Elizabeth, things are not always what their names would imply.

A poker chip isn't necessarily a chip off a poker.

HEALTH TALKS

BY DR. LEO H. SMITH

THE KIDNEYS AND URIC ACID

KIDNEYS

All the blood in the body goes thru the kidneys within a few minutes. Therefore the kidneys are very important for health, because they filter out of the blood most of the waste (poisonous) substances and the blood then flows on toward the heart thru the kidney vein, and what the kidneys take out of the blood forms urine. So it is very important to have the water cleared free of chemicals at least once a year to test one's health.

I would suggest that everyone send a sample to Dr. Pierce's Laboratory in Buffalo, N.Y., for a thorough chemical and microscopic test. This will be made free of charge and a report sent to you. The kidneys and bladder suffer from the year and year and we get chronic inflammation sometimes indicated by backache, a constant feeling of water, dull, heavy feelings. Perhaps the uric acid is stored in the system in excessive amount, and consequently, when the uric acid is deposited in muscles and joints one suffers from rheumatic pains, gout, etc.

Before an insurance company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. If you are not a good risk, you will not get a policy. So it is a good idea to have your kidneys tested. This is the time you should consult some physician of wide experience such as the specialists at Dr. Pierce's Invaluable Hotel and Surgical Institute, Buffalo, N.Y. Send 10 cents for sample packages of the new Anuria (double strength). Write your symptoms and send a sample of urine for test. Experience proves that "Anuria" is a most potent agent in dissolving uric acid, not only uric acid, but besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them—being many times more active than litmus.

Ask the druggist for "Anuria" put up by Dr. Pierce, in fifty-cent packages.

How It Happened

Here is a report from the civil war archives concerning the capturing of a rebel battalion by a battalion of Union troops, in which the major, detailing the engagement, wrote as follows:
"Our left were trying to move around the rebel right, but the rebel right was also moving around our left. When the left of the rebel-right moved around the right of our left, what was left of the rebel right was right where our right had just left. So when the rebel right's left was left right where our right had left, our right was left right left of their right, and that's how it happened."—Ex.

How Many Apples Did Adam and Eve Eat?

Some say that Eve 8 and Adam 2—a total of 10. Others say that Adam 8 and Eve 8—a total of 16. But if Eve 8 and Adam 82 the total would be 90. Now if Eve 81 and Adam 812 the total would be 893. And if Eve 811(st) and Adam 812 (nd) the total would be 1623. Or if Eve 814 Adam and Adam 81242—odds! Eve the total would be 82,006. Though we admit Eve 814 Adam, Adam if he 8181242 keep Eve company, total 8,182,006. All wrong. Eve, when she 81812 many and Adam, in order to relieve her 8182, 812, therefore Adam, if he 8181242 Eve's depressed spirit, hence both ate 81,806,864 apples.

The Home The Center

Every home should be a center for the thrift campaign, for in the life of a nation the home occupies a position of strategic importance. The citizens of tomorrow will be what our homes make them, it being impossible for the children to get away from home influence.

If Canadians are to be a thrifty people it will be largely because thrift is taught in the homes of Canada. For habits of thrift may be formed there, even before the child starts to school. Even after attendance at school begins the child spends much more time at home than in the school room.

The Canadian War Savings Plan presents a splendid opportunity to train children in habits of thrift. It does so because it provides a means whereby even 20c pieces may be taken care of with profit. A Thrift Stamp only costs 25c, while 16 of them will buy a War Savings Stamp. For the four dollars which one of these stamps costs, the government will pay \$5 in 1924, which is equal to 84 per cent. compounded half yearly.

W. S. S. will make for a thrifty home and thrifty children. Introduce them.

The Twentieth Century Reptile

Just why the Lord ever made a "spotted" has been puzzling the brain of the average man for a considerable period. The word conveys everything that is mean, sly, cunning and loathsome. Unfortunately Fernie and other towns along the Crow have not been without them. The disgusting part of their "business" is that they must "get something" on someone, whether or not that someone has anything to "eat." Cases are on record where men of unquestioned integrity have been discharged through the work of these thugs of the creeping, crawling, slimy, reptile-like beings that some people call humans. Cranbrook has had its fill of this element. It is to be hoped that Fernie will not tolerate the presence of spotters in their midst any longer than the good old town of Moyle which in its palmy days told the record for quick action. It is said that Moyle lake was the burying ground, the only regret of the miners of that town being that the lake was not deep enough. The spot, which marked the graves of Chinese and spotters generally was: "It's a pity the devil didn't take him when his bones were soft."—Ex.

Hon. W. J. Hanna, head of the Canadian end of the Standard Oil Company, former food controller and one time provincial secretary for Ontario, died in Georgia today.

The case against Mark Sartoris, who is charged with having had in his possession intoxicating beer, and which was to have been heard today, has been further adjourned to Tuesday next.

Mr. W. L. Evans has started clearing away for the foundation of his new garage.

A farewell party is being given by the Masons of Bellevue and Hillcrest to Mrs. MacKenzie and Ross.

Pleading guilty to four charges of illegally importing liquor into British Columbia, the Western Canada Liquor Company paid fines of \$1,000 on each count.

We have just received instructions from Paris to save up all our scrap paper and excelsior for the purpose of erecting bustles on ladies this summer. We have on hand about sufficient to stuff fifteen.

The Oddfelloes' hockey game at Coleman on Monday night resulted in the locals being defeated to the tune of 7 to 5. Walter Olendahl was mistaken for a goal net near the end of the game and received a nasty gash over the right eye.

G. A. LaVoie has resigned the position of purchasing agent with the West Canadian Collieries, and we understand has taken a position as engineer with the Hoston and Maine Railroad. Mr. G. Gazzowski is filling the office of purchasing agent temporarily.

Remember the Schubert Sextette concert at the opera house on Monday night next. Concert will commence at 8 o'clock sharp, as the company have to take that night's train for Lethbridge, where they play the following night. Tickets are selling fast and seats will be at a premium.

Mrs. Mary Thomas, of Calgary, has issued a writ against the Town of Blairmore for the recovery of the sum of \$58.00, claimed as contracted for nursing fees during the recent 'flu' epidemic. The town offered Mrs. Thomas in the neighborhood of \$25, which she declined to accept, but which the council considered reasonable remuneration for services actually rendered.

The refreshment parlor of the Alberta hotel was raided by two stool pigeons on Saturday morning last. The strongest liquid found was the water in which glasses and bottles had been rinsed. This they had the good fortune to taste, and soon declared themselves water proof, which is quite within the law. A fellow felt like remarking: "It's hell to be a spotter."

Free Agricultural Instruction

In the provinces of Ontario and Saskatchewan a director of co-operation and marketing instructs the farming community as to the advantage of co-operation in disposing of their farm products. Assistance is given to inexperienced men to enable them to organize in a way to avoid mistakes and to assist them to systematize and simplify their business transactions. These men are supported by funds provided by the Dominion Government under the Agricultural Instruction Act. According to the report on the work done under this act in 1917-18, thirty-five associations in Ontario did business to the amount of \$600,000, while Saskatchewan ran over the \$2,000,000 mark. This is but one of the many activities assisted and dealt with in the report which is distributed by the Publication Branch of the Department of Agriculture at Ottawa. Under this act, Ontario, among other provinces, is extending the teaching of household sciences to rural schools. Through the funds provided school boards purchase equipment especially suited for one-roomed schools. These are especially valuable for rural schools as it enables children to participate in a warm lunch at the noon hour. Household science thus given does not consist of cooking only, but also includes lessons in cleaning, general household management and sewing. Manual training is also provided for by instruction in simple mechanical drawing and the use of tools in making articles for the farm and farm home. Education of this type is referred to in the report as both cultural and practical.

Notice to School Districts Desiring to Hold School Fairs Commencing in Spring 1919

The Department of Agriculture at Edmonton purposes giving assistance in the organization, management and financing of School Fairs through the School of Agriculture at Claresholm. This notice has reference to the territory in Southern Alberta extending from the main line of the C. P. R. south to the boundary.

Briefly, the plan is that a committee of interested citizens shall be organized at the center at which it is proposed to hold a fair, which committee will share with the Departments of Agriculture and Education the work and expense of the Fair. A group of from eight to twenty-five schools convenient to the center will be selected. Garden seeds will be distributed through the committee to the pupils of these schools. The pupils will plant the seeds at home, care for the gardens during the summer and in the fall, exhibit samples of the products at a fair. Girls will receive recipes and instructions in connection with the sewing and cooking that they will exhibit at the fair. For further instructions apply immediately to

Ex-kaiser Bill now earns about
fifty cents a day sawing wood.

Pick will adorn the carpet at the
police barracks on Monday next,
all things permitting. The cause
of his appearance will be announced
next week.

Pitcher Creek council will ask
the minister of education for permission
to impose a \$4.00 educational
or poll tax on all non-tax-
payers in that district over twenty-
one years of age.

Canada will spend \$437,000,000
during the coming year in railway
and public works improvements,
soldier settlement, harbor better-
ment, etc. The appropriation for
the R.N.W.M.P. has been increased
from \$1,497,000 to \$2,250,000.

Judgment has been entered in
the case of Salt, versus the Town
of Cardston, heard in February be-
fore Mr. Justice Stewart. Judgment
is in favor of the plaintiff, Salt,
for the sum of \$10,000 and the
costs of the action. C. F. Jamieson
appeared for the plaintiff and
Messrs. Elton and Jacobs for the
town of Cardston. This is the case
in which the plaintiff sued for
damages received when in driving
cattle into Cardston a year ago last
fall, his horse ran into an un-
protected guy wire on the town's elec-
tric light system with the result
that the plaintiff was thrown violently
to the ground and sustained
fracture of the thigh and one of the
vertebrae, causing atrophy of the
leg from which the victim has not
recovered and can never fully re-
cover.

1899-1900 was either the primary
or contributory cause of no fewer
than 98,000 deaths in the last three
months of 1918 in Canada.

A Triumph Of Edison's Genius

Those who hear the New Edison
Diamond Amberola are amazed at the
fidelity of its reproductions. They can
hardly believe that any instrument
could be so nearly "human".

If you will permit us to occupy a
corner of your living room with

The NEW EDISON DIAMOND AMBEROLA

we will repay you many times over by giving you
the most delightful musical treat you have ever experienced
in your home. Without obligating yourself in any
way whatever, we will send to your home some of the
greatest singers, instrumentalists and musical organi-
zations of various kinds.

We do this by sending you an Amberola and a
dozen AMBEROL RECORDS. It won't be more
than five minutes before you will decide that you
will never part with the Amberola; but you can have
a week in which to try it out and decide whether
you will want us to bring the outfit back to our store,
or whether you want to keep it
by paying cash or arranging
convenient terms.

Take advantage of this free
trial offer today—come in and
select the style of Amberola you
prefer and your favorite records.
It won't cost you a cent unless
you buy.

Rumors of business changes
are now filling the ears of any-
one who has time to listen to
them. The most persistent are
that Emperor Pick is negotiat-
ing for the purchase of the Cos-
mopolitan hotel with all its
contents except the cook and
the printers; that Chin Hing is
trying to acquire a large room-
ing place in connection with
which to run a restaurant; that
a Chinese company are negotiat-
ing with Mike Rosse for the
purchase or lease of the old
drug store property for restau-
rant purposes; that a Calgary
concern will acquire the prem-
ises now occupied by the Blair-
more Hardware Co., which they
will convert into a repair shop
and auto garage; that Mr. C.W.
Johnston will sell his interest
and good will in the Blairmore
opera house to the Pantages
circuit; that another member
of the A.P.P. will quit worrying
over criminals and will enter
into the livery business; and
that Antonio will move his pool
tables up to a point about thirty-
five miles south of Red Deer.

Mr. Hayr, formerly of the
Hayr Hardware Co., has decid-
ed to sink a few bucks by pur-
chasing the plant of the Leth-
bridge Telegram. His new
publication is styled The Canadian
Advocate, and is a good
looking sheet.

A teacher at the local school
discovered that a small boy in
her class had been chewing to-
bacco, and gave him a sound
tongue lashing. The little fel-
low looked up at the teacher
and asked: "Well, if chewing
tobacco will keep a boy from
growing, why didn't Bartlett
chew?"

The annual meeting of the South-
ern Alberta Wool Growers' Associa-
tion opened in Lethbridge on Wed-
nesday. Mr. K. M. Brown, forest
superintendent of the Crown's West
Forest Reserve, is attending the
convention. He states that there is
sufficient pasture available in this
district for 32,500 sheep.

Freedom Sought By the Koreans

Seoul. — The declaration of Korea's independence says it represents the voice of twenty million persons speaking in the name of justice and humanity.

"We are no mean people," the declaration continues. "We have 43 centuries of history as a distinct, self-governing nation. It is our solemn duty to secure the right of free and perpetual development of our own national character, adapting ourselves to the principles of the reconstruction of the world."

"It is nearly ten years since, for the first time in our history, we put on the yoke of another nation and were made the victim of the curse of the most imperialistic system in the world."

The declaration continues that it is the duty of Koreans to secure their independence, wipe out injuries, get rid of present sufferings and "sit up the national spirit and vitality so long oppressed by the unjust regime of Japan, and leave our children eternal freedom, instead of a bitter and shameful subservience. We shall fight to the last drop of blood in the cause of liberty."

Plan Has Failed

France Gives Up Idea of Pooling War Debts

Paris. — France has abandoned, for the present at least, any hope of having her great war debts shared by the allies. It is authoritatively asserted by one of the Americans attending the conference that what had been an embarrassing possibility, has now been definitely eliminated from the deliberations, although it is possible that France might at some future time attempt to secure assistance.

The project has never been formally presented at the conference but conversations held at intervals since the conference began have served as a medium for the presentation of the French point of view.

The British and United States delegations have been quite frank in their dispute, and have openly said the people of their countries would be slow to endorse such a plan.

Decisions Becoming Known

Military Conditions for Germans Given Out in Installments

London. — The personnel of the German fleet is to be restricted to fifteen thousand, the supreme council has decided, according to press despatches from Paris.

The military conditions to be imposed on Germany includes guarantee that no tanks will be built and no more poison gas manufactured and that all German war material must be handed over and destroyed.

It is added that allied commissions will supervise the carrying out of these conditions.

When the Germans are summoned to Paris, the Evening News says, the treaty will be read to them and they will be invited to sign it. There will be no discussion with a view to alterations of the principal articles of the treaty. If it is thought necessary, questions involving the adjustment of details will be referred to a special commission.

German Delegates Go to Brussels
Copenhagen. — The German delegates are going to Brussels to learn the decision of the allies concerning the turning over of the German mercantile fleet and the conditions of the food supply that is to be given Germany in return.

Weimar. — Under secretary Braun, speaking of the armistice negotiations at Spa, said:

"We consider the rupture of the Spa meetings simply a measure permitting the opposition delegates to demand fresh instructions from their governments. Our situation is serious, not desperate. Fresh negotiations will come."

Hun Delegates Must Stay at Versailles

Paris. — When the time for the signing of peace arrives, it is understood Germany's representatives will be housed in one of the palaces at Versailles and will not be permitted to enter Paris, as the French government does not care to undertake to afford protection to Germans in Paris.

Food for Poles

Paris. — The food relief of Poland is proceeding smoothly, according to Herbert Hoover, in spite of the fact that the river is too great to send trans-Atlantic steamers all the way to Danzig owing to the Baltic not being free of mines. A large proportion of the food is being discharged at Rotterdam and Copenhagen, and is then transhipped in smaller craft to Danzig.

Dreadnoughts Not Being Constructed

Great Britain Abandons Work On Those Partially Completed

London. — Replying to a question in the house of commons, Thomas J. MacNamara, parliamentary secretary to the admiralty, said that no dreadnought battleships were under construction on Dec. 31 last.

He added that four dreadnought battle cruisers were under construction on that date; that work on three, which were in very early stages, had been abandoned and the ships upon which they were being built had been freed for merchant ship construction. "On the same date," he said, Great Britain had 33 dreadnought battleships and nine dreadnought battle cruisers, all of which were in commission, with exception of one battleship and one battle cruiser. So far as he knew no capital ships will be laid down this year.

Australian Trade with Canada

Two New Freighters Being Constructed For This Service

Vancouver. — Mr. Charles Holdsworth, managing director of the Union Steamship Company of New Zealand, who has arrived here to take passage home on the steamship Niagara, after spending two years in England, announced that the company not only intended to replace all the ships lost during the war, but also to add another mail ship, faster and bigger than the Niagara, to run between here and New Zealand and Australia. He said the company was looking for the development of a great Australian trade with Canada and the United States. Two new freighters of 9,000 tons each are being constructed for this service, and will be completed by the end of March. Negotiations are also in progress for the purchase of three other cargo ships for delivery four months hence.

Have Themselves to Thank

Huns Created Situation in Regard to Shipping

London. — Control of the German ships is a necessary condition to the feeding of the German people and the Germans have made that situation, declares the Westminster Gazette in discussing the break in the shipping negotiations at Spa. Again and again during the last two years the paper adds, it has pointed out to them the destruction of merchant tonnage by their ruthless submarine warfare would produce a situation in which it might be totally impossible to supply Germany herself with the food and raw materials which she would need when the war ended.

This is the often predicted nemesis of ruthless submarine warfare. If the allies are unable, from lack of tonnage, to send sufficient coal and food to their friends, the use of German tonnage will enable them to do justice to their friends and at the same time provide for their enemies, but they are obliged to tell the Germans that this is the only way, and if it seems harsh and repugnant they have themselves to thank for it.

Indemnity Bills Presented

Amounts Claimed Cannot Yet Be Made Public

Paris. — All the belligerent nations have presented their bills for indemnity to the commission, except France.

The amounts claimed by the various nations from Germany cannot yet be made public, the commission, reserving to itself the right to give out the figures. It can be stated, however, that Belgium's demand totals between thirty billion and forty billion francs—twenty billion francs for actual physical destruction and the balance for thefts, unpaid-for requisitions, seizures and the like. This is the largest figure claimed by any of the belligerents with the exception of France.

British Army of Occupation

London. — The government announced in the house of commons that the total strength of effective and non-effective British troops in the armies of occupation in all theatres of war amounted to 902,000 men, including officers. The strength of the British army in France, Belgium and Germany, including Dominion troops, on February 1, was 1,324,106. It was stated that 197,000 German prisoners are being fed by the British commissary department.

Oriental Start Run on Bank

Police Reserves Were Called to Handle Crowds

Vancouver. — A scene closely resembling one of the panicky days during hard times was enacted here when a run was started on a Japanese bank in which Hindus as well as Orientals had money deposited when rumors of alleged insolvency of the bank started at a single mill employing Asiatics and shortly after the noon hour, a wildly dishevelled mob made its way to the bank in an automobile, presented their deposit books and demanded their savings.

From this incident rumors spread until there was a great crowd of Orientals demanding their money. Police reserves were called in to quell what had the appearance of a riot. Consul Ukita was appealed to and a short time two automobiles full of crisp bills were on their way to the bank from another bank as were soon arrayed in plain sight. Consul Ukita addressed the crowd and many of them redeposited their money before leaving the bank. The greatest number of withdrawals, however, were made by Hindus, who took their bills away with them. Several shingle mills were sadly crippled for help during the afternoon when their Asiatic employees made a wild dash for the bank.

Labor Troubles Now In Ireland

Reds Plunder City

London. — A Copenhagen dispatch says that the nature of the fighting between government troops and Spartacan bands in the eastern suburbs of Berlin seems to indicate that local Spartacan groups have been formed for "no other purpose than to plunder the city." An Amsterdam message says that a Spartacan adherent was captured and in his possession were found jewels valued at 800,000 marks. The message adds that the man was executed.

Eight Hour Day for Spanish Madrid. — The Spanish cabinet decided to grant an eight-hour working day to the building trades throughout Spain, wages to be fixed by committees of employers and workmen in each district. The cabinet also approved a bill to insure workers against unemployment.

London. — Especial prominence is given by the Irish to a Dublin dispatch representing the situation in Ireland as being extremely bad and maintaining that the need of effective self-government is more urgent than ever before.

"Now that the Sinn Fein members of the house of commons have been released," the dispatch says, "there will be a new assembly of the Irish parliament which will probably be a very troublesome affair without an authoritative administration to balance its activities. Labor troubles of greatest import are growing, and it is impossible for the British government to handle them. There is hardly a section of Irish labor which is not preparing or threatening to strike for demands which no employer can possibly grant."

"The well intentioned schemes of General Viscount French, lord-lieutenant for social and industrial improvement, have gone by the board, and there is a dangerous situation which can be handled only by an Irish parliament."

Assassination Was Deliberate Plot

Vienna Court Wished to Get Rid of Archduke Ferdinand

Berlin. — Charges that the assassination of Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg at Sarajevo on June 28, 1914, was the result of a deliberate plot by the late Count Tizsa, former-Hungarian premier, are made in a pamphlet written by a priest who was the spiritual adviser of the Duchess of Hohenberg, according to a Vienna dispatch to the Frankfort Gazette. The pamphlet entitled "The Sarajevo Murder and Count Tizsa's responsibility for the World War," is said to have made a profound impression in Austria.

It is declared that Francis Ferdinand repeatedly refused to go to Sarajevo and it was only an appeal to his courage that induced him to make the trip.

"The most elementary precautions were omitted," it is stated by the priest. "He was simply led into a trap prepared by the court at Vienna and by the Hungarian aristocracy, headed by Count Tizsa."

The general idea of the pamphlet is that Magyar magnates with the consent of the Vienna court wished to get rid of the archduke, who was extremely disliked, and obtain vengeance for the murder at the expense of the Jugo-Slavs, who would be made helpless. It is pointed out that no "proper" enquiry was ever made into the tragedy, and that no one was made responsible for the fact that precautionary measures were not taken.

North Pole Route Proved a Failure

Explorer and Men Landed Near Starting Point

Dawson. — Stoker Storkerson, explorer, and his five men who landed on an Arctic ice floe last year, expecting to float toward Siberia, have landed near the mouth of the Colville river, Alaska, not far from Baker's land, where they started, according to word brought here by the Royal North West Mounted Police.

The party established a camp in March, 1918, on an ice floe, thirty miles long, seven miles wide and from fifty to one hundred feet thick. On this they drifted one hundred miles west, seventy miles north, and fifty miles east, according to reports. They landed November 7, 1918. While on the floe they subsisted on polar bears and seals.

Storkerson is reported to be on his way to Ottawa.

Geneva Suggested as Capital for League

Paris. — An invitation was sent out to all the neutral nations in Europe, Asia and South America, asking them to attend a private and unofficial conference on Thursday, March 20, with the object of giving neutrals an opportunity to present their views on the league of nations. The invitation was sent by the conference authorities to the ministers of the neutral powers in Paris, and they forwarded it to their governments.

Switzerland has already replied favorably to the suggestion. No South American governments have yet answered.

A strong sentiment is developing in high quarters of the conference towards making Geneva the official seat of the league of nations. Several of the heads of the delegations, who have been consulted, have given their approval.

The Power of a Ten Dollar Bill

Consider the power of a Ten Dollar Bill when it is spent at home. It is like magic. It circulates. It pays off a hundred obligations. It creates business and puts people to work in our community. But the ten dollar bill that is sent away to the out-of-town house does nothing for our town. It becomes dead to us. It is out of commission forever as far as our town is concerned. We never see it again. Let us, then, give power to the money we spend. Let us remember that our best investment is that power-money that we spend at home.

People to Decide

Government of Alsace Left to Inhabitants

Strasbourg. — A council of Alsace-Lorraine at a meeting here has adopted a plan for the re-organization of the administration of the two provinces, according to the wish of the inhabitants. A French high commissioner, with headquarters in Strasbourg, will centralise all French service under his authority and will act for the French minister of war in matters which now have to be referred to Paris.

A number of members of the council from Alsace-Lorraine will assist the commissioner as a permanent consultative commission. The council adopted a resolution insisting upon the necessity of hastening the elimination of all German elements from the public service.

Is Ex-Czar Dead?

New York. — Bernard Numbaugh, a lawyer, was named by Supreme Court Justice Brandeis in Brooklyn as a committee of one to ascertain whether Nicholas Romanoff, former czar of Russia is dead or alive, and if dead, who is next of kin.

Mr. Numbaugh is eagerly looking for someone who can solve the riddle for him. In its solution rests the collectability or no collectability of a \$117,450 judgment which Mr. Numbaugh recently obtained against Mr. Romanoff on behalf of the Marine Transportation Service Corporation.

Boundary Dispute Settled

Will Restore Belgium's Sovereignty and Eliminate Her Neutrality

Paris. — The report of the commission on Belgian affairs, charged with investigation of the differences between Belgium and Holland, has been submitted to the council of the five great powers. It advises that the three treaties of 1839 establishing the status of Belgium and Holland be revised by the council as they now are "useless and disadvantageous to Belgium."

The three treaties are identical except as to the signatories. Belgium and Holland signed one and Holland and Belgium each signed one with Great Britain, France, Austria, Russia and Prussia. Three of these powers have disappeared and the treaties have become "scrap of paper," which Germany violated by invading Belgium.

The proposed revision of the treaties will restore Belgium's complete sovereignty and eliminate her neutrality, which afforded no protection, and is now distasteful. Holland will be summoned before "the big five" shortly to discuss revision of the treaties.

Great Waterway Across Europe

Chabon-Sole, France. — A congress of chambers of commerce at a session held here approved the project to join the Rhone river with the Rhine by coupling up the Rhone with Saona. The purpose is to create a great waterway between the Mediterranean sea and central Europe.

Capital and Reserve, \$5,000,000
Total Assets, Nov. 30th, 1918, over \$153,000,000

For Your Own Sake

From a purely selfish motive isn't it safer to have a growing bank account in these days than to spend all you earn?
There's no friend more welcome in sickness or trouble than a bank account.

UNION BANK OF CANADA

THE PIONEER BANK OF WESTERN CANADA
HEAD OFFICE WINNIPEG, MAN.

Blairmore Branch, Bellevue Branch, J. A. Windsor, Manager.
Hillcrest, sub. to Bellevue.

Hon. H. H. A. Quith is likely to become president of the league of nations.

It is expected that peace terms will be signed within the next two weeks.

Dr. N. T. Newman, of Vauxhall, is taking up the medical practice at Hillcrest.

Dr. H. A. MacDonald, who is relieving Dr. Allan Ross at Hillcrest, was in town on Tuesday.

Lethbridge will likely issue debentures for \$2400 to cover 80 per cent of the flu cost.

Rev. J. E. Hunter, one of the famous Methodist evangelists, Crossley and Hunter, died at his home in Hamilton on Monday.

Local Oddfellows are invited to attend the regular meeting of Coleman lodge on Monday night next, when the first degree will be conferred.

Mr. A. E. Hume, provincial secretary and representative of the Great War Veterans' Association, was down from Calgary on Tuesday en route to Ottawa. Mr. Hume promises to meet a mass meeting of veterans in Blairmore on the night of Sunday, April 6th. Mr. Hume is field secretary for the Alberta advisory committee, with headquarters at Ottawa.

Recommendations for a six-hour day, a five-day week, an increase in wages of miners and nationalization of the coal mines of the country, were made by Frank J. Hays, president of the United Mine Workers of America, in his address at the opening session of the convention at Indianapolis on Tuesday. He also recommended that miners have the right to organize and to bargain collectively with the government in making wage scales in case of nationalization of the mines.

Just Caught in Passing

The Princess Pats have returned to Canada.

Mrs. P. Stapleton, one of Macleod's old timers, died on Tuesday of last week.

A charter has been granted for a railway line to be built from Coutts to Medicine Hat.

British Columbia hopes to have General Sir Arthur Currie as its next lieutenant-governor.

A local guy was asked who ran the Dominion of Canada. The guy replied: "The C. P. R. and Pick".

Mr. N. S. Brown spent last week end with friends at Cardston, returning to town on Monday morning.

Tommy Longworth, of Lethbridge, is superintendent of the Alberta Government Employment Bureau.

A. Carewell, of Lundbreck, and James Bennett, of Cowley, were business visitors to Blairmore this week.

A number of local veterans attended the concert given in the Rex theatre at Bellevue on Sunday night last.

The marriage of Fred T. Robins, of the Lethbridge Herald staff, to Miss Dorothy Sellens, took place at Lethbridge on Monday.

The world's biggest and most powerful warship, the Hood, (British) is 900 feet long. The ship is mine and torpedo proof.

The State senate at Concord, N. H., rejected a bill designed to permit the playing of baseball, golf and other games on Sunday.

The city of Edmonton will spend \$350,000 in park improvement in 1919. Blairmore will spend less than that amount on civic improvements.

Mr. and Mrs. Wilfrid Wolstenholme and children returned last week end from the Pacific coast, where they had been spending the winter months.

On the occasion of the Moccasin Dance on the Frank skating rink tomorrow night, refreshments will be served by the ladies of the Red Cross in buffet style.

A grand dance will be given in the Union Hall at Hillcrest on the night of Monday, March 31st, under the auspices of the Great War Veterans' Association. Royle's orchestra will furnish music.

The dance given in the opera house by Mr. Johnston on Monday night in connection with the picture show was well patronized and proved popular. The cabaret scheme was adopted, the show audience maintaining their seats while the orchestra and dancers made use of the centre of the room. During the evening several song selections were rendered in good style by Miss Vera Kalfoury, Blairmore's rising prima donna. Dance music was furnished by local talent assisted by Mr. Robert Kerr of Bellevue.

The Spring Horse Show, to be held at Calgary March 25th to 28th will be the most interesting held since the beginning of the war. A splendid list of entries has been received and the competition will be extremely keen. Mr. Wm. McKirdy of Napinka will judge Clydesdales, Shires and heavy draft horses, Prof. A. A. Dowell, of Edmonton, will judge Percherons, Belgians and Suffolk Punch, Mr. Wm. Lowes, of Edmonton, will judge Hackneys, Standardbreds and light horses. Most interesting evening programmes have been arranged, including jumping, driving and saddle classes, tent pegging, roping, cow horse class, etc. Special rates of a fare and a third will be in force good going March 24th to 27th and returning up to the 31st.

Hush money usually speaks for both parties in the transaction.

A nutmeg may be great, but sooner or later it will meet a grater.

Virgil Pa-more returned home last week end from Medicine Hat.

The would be murderer of Premier Clemenceau has been sentenced to death.

FOR SALE—Fifteen Holstein Dairy Cows, fresh. Apply to James Bennett, Cowley, Alta. Ap. 10

The new Blairmore orchestra accompanied Rev. Mr. Young to the Sanatorium on Sunday morning last.

Miss L. Slopak, who underwent an operation at the local hospital last week, is coming through successfully.

A dance was given at the opera house, following the picture show on Monday night, and was well patronized.

The Schubert Sextette will appear at the opera house on Monday night next under the auspices of the Dominion Lyceum.

Dr. David Warnock was tendered a grand banquet on the occasion of his leaving Pincher Creek last week for his new post at Victoria, B. C.

Charged with changing his mind on a civic issue the mayor of Montreal declared that he had the same right to change his mind as his shirt.

Mr. and Mrs. Frank A. Beebe, of Arcola, Saskatchewan, who had been spending a few months with the former's father, Capt. W. A. Beebe, here, left for home this week.

WANTED—Old false teeth, don't matter if broken. I pay \$2 to \$15 per set. Send by parcel post and receive check by return mail. F. TERL, 403 N. Wolfe St., Baltimore, Md.

Chin Hing, mayor of China, has returned to Blairmore. Chin ran away home when he heard that the little Jap had made up his mind to clean up parts of Pekin. He wouldn't even stop to "peek-in."

An Irishman entered the Cosmopolitan hotel the other day, looking as dry as others feel and just as sour. He butted into an argument that was on between Chestnut, McLeod and several others, and in the melee was eventually asked who comprised the Alberta government. Without hesitating one moment he replied: "Pick and the attorney general!"

Sunday, April the 6th, will be observed as anniversary Sunday at Central Union Church, on which occasion the Rev. Thomas Powell, of Calgary, superintendent of missions, will be the speaker. We understand that about that time a full week or ten days of evangelistic services will be conducted by Mr. Powell, assisted by the pastor, Rev. W. T. Young.

The department of attorney general will soon have all the ex-convicts and would-be convicts of the province lined up to help enforce the Alberta liquor act. What an opportunity it would be when the roundup is completed to cage the bunch and sound their death knell. The occupation may be an honorable one, but any individual who will adopt all of the tactics permitted by the attorney general in an effort to detect offenders of the liquor act, must be void of anything that might be regarded today as human principle. Principled characters do not want to accept such a vocation and will not, and the individual that will be invariably directly or indirectly connected with crime. The "stool pigeon" has adopted the term of "detective" and will live on the honor of that profession forever afterwards.

For Wedding Baskets, Bouquets, Funeral Wreaths, Crosses, Pillows, House Plants and Fresh Cut Flowers of all descriptions, phone or write M. Joyce, Blairmore.

An exchange says: "The knocker, realizing that he is a dead issue, has decided to spend his remaining days on earth as near the cemetery as possible."
